

**Professional Engineering Services
RFP #2022-01**

**ADDENDUM #7
November 16, 2021**

Pre-Proposal Presentation

General Engineering Services
For the Charlottesville-Albemarle Airport
RFP# 2022-01

RFP Pre-Submittal Meeting
November 15, 2021
2:00 p.m.

General Engineering Services for Charlottesville Albemarle Airport

The purpose of this document is to provide interested parties with information to enable them to prepare and submit a statement of qualifications for professional aviation consulting design and engineering services for projects that may be undertaken in the Authority's six-year capital improvement program.

Deadline for Receipt of Proposals:

December 7, 2021 - 2:00 p.m. Eastern Time (Per Addendum #2)

Deliver Statements To:

*Charlottesville Albemarle Airport Administration Office,
100 Bowen Loop, Suite 200,
Charlottesville, VA 22911
Attention: Jason Burch*

LATE FAXED, ELECTRONIC MAIL, OR UNSIGNED STATEMENTS WILL BE REJECTED

A little about CHO

- The Charlottesville Albemarle Airport Authority is a political subdivision of the Commonwealth of Virginia, created in 1984 by the Virginia Acts of Assembly. The Authority board consists of the City Manager, the County Executive, and one private citizen appointed from the Charlottesville Albemarle Joint Airport Commission. The Commission is an advisory group composed of seven members appointed by the Charlottesville City Council and Albemarle County Board of Supervisors.
- The CHO is a non-hub commercial facility served by three major airlines: Delta Airlines, United Airlines and American Airlines.

Purpose of the RFP:

- The Airport Authority is seeking proposals with a statement of qualifications from professional engineering firms with aviation experience for consulting design and engineering services for projects that may be undertaken in the Authority's six-year capital improvement program.

Projects Included but not Limited to:

- Air Carrier Terminal Building Improvements and/or Expansion.
- ARFF Building Improvements/Relocation/Expansion.
- SRE Building Improvements and/or Expansion.
- Other Authority-owned Facilities Improvements .
- Airside and/or Landside Covered Walkway Systems .
- Public Parking Lot Pavement Rehabilitation, Revenue Tracking System Technology Improvements, Install Covers Over Parking Lot Entrances, and other Public Parking Lot Improvements.
- Public Parking Expansion to Include Multi-Level Deck and/or Surface Lots.
- Airport-wide Security Upgrade.
- Air Carrier Ramp Rehabilitation and Airfield Improvements to include; Pavement Rehabilitation, Seal Coat Application, Joint Seal Replacement, Airfield Lighting/Signage Upgrade, Storm Water Drainage Improvements, and Other Part 139-Related Projects.
- General Aviation Facilities Rehabilitation Projects to include; Ramp, Fuel Farm, Parking, and Roadway System.
- Entrance Roadway Improvements.
- Other Facilities Parking and Roadway Improvements to include Perimeter Road.
- ALP and/or Property Map Updates, Land Acquisitions Services, and Environmental Review Assistance.
- Assistance with Project Development to include Scoping and/or Justification of Design-Build and Construction Manager-At-Risk Projects.
- Other work as identified.

Special Services:

The Authority reserves the right to retain other contractors to perform some activities or studies. At the Authority's option however, the Engineer may be engaged to provide or arrange such services.

Examples of special services that might be necessary within the scope of the Authority's projects include, but are not limited to:

- Soils investigations, including core sampling, laboratory tests, related analyses, and reports.
- Detailed mill, shop, and/or laboratory inspections of materials and equipment.
- Land surveys and topographic maps.
- Field and/or construction surveys.
- Photogrammetry surveys.
- On-site construction inspection and/or management involving the services of a full-time resident engineer(s), inspector(s), or manager(s) during the construction or installation phase of a project. (This construction inspection/management differs from the periodic inspection responsibilities that were identified as part of the basic services).
- Environmental studies and assessment reports for specific development projects.
- Expert witness or other testimony in litigation involving specific projects.
- Project feasibility studies.
- Public information activities, studies, and surveys.
- Preparation of as-constructed plans.
- Assisting the sponsor in the preparation of applications for State and Federal grants.
- Preparation of property maps and Airport Layout Plan updates.
- Construction Management.
- Preparation of quality control plans and other engineering certifications, studies, and/or reports as may be required by federal/state/local governmental agencies.
- Contracts with Other Professionals

Scope of Services:

Preliminary Phase:

- Finance requirements, coordination with other agencies, schedules, surveys and field investigations, and environmental and Aesthetic considerations.

Design Phase:

- Conduct design meetings, data collection, environmental studies, preparation of plans and cost estimates, printing and delivery of drawings to outside agencies.

Bidding or Negotiation Phase:

- Collection of bids or negotiated proposals, analyze results, provide recommendations and prepare contract documents.

Scope of Services (Continued):

Construction Phase:

- Represent the Authority at all meetings/conferences.
- Frequently visit job site and prepare progress reports.
- Review shop drawings and prepare change orders.
- Prepare pay requests.
- ***Carry out applicable requirements of Title 49 C.F.R. Part 26 (DBE's).***
- ***Carry out applicable requirements of Title 29 C.F.R. Parts 1, 3 and 5 (Davis-Bacon and related Federal Acts).***

General Information for Preparing Proposals:

It is anticipated that these projects listed may be accomplished in part with funds from the Federal Aviation Administration (FAA), Virginia Department of Aviation (VDOA), Passenger Facility Charge (PFC) revenues, Airport Revenue Bonds as well as Airport Authority funds. Therefore, professional consultant services rendered for these projects must conform to all applicable requirements of the FAA and VDOA. Selection will be in accordance with FAA Advisory Circular 150/5100-14E, and Title 49 C.F.R. Part 18.

***COST OR FEE INFORMATION IS NOT TO BE INCLUDED WITHIN
THE PROPOSAL.***

**Federal Aviation
Administration**

**VIRGINIA DEPARTMENT
of Aviation**

Evaluation Criteria:

	Description	Percent
