ADDENDUM #1 RFI ar Type Fabricated Building

Modular Type Fabricated Building for the Charlottesville Albemarle Airport

1. Is there a room layout for the modular unit (more than the descriptor in the RFP)?

- No partitioned rooms, open interior.
- 2. Finish requirements?
 - No specific finishing requirements.
- 3. Preferred manufacturer?
 - No preferred manufacturer.
- 4. Will the unit require domestic water/ sewer connections?
 - Yes, but connection to municipal water and sewer is not part of this bid.
- 5. Are there wind load or FAA requirements for this building?
 - The FAA does not have specific wind load requirements; however building is to be construction per wind loads stated in Commonwealth of Virginia applicable codes for modular type structures.

6. Are there anticipated goals for delivery dates? Is there a possibility of this requirement being revised?

- Attachment A of ITB 2022-04 states delivery "not to exceed 90 days from date of award." Delivery dates greater than 90 days shall be reviewed after bid open date.
- 7. Is there more information describing the project specifics?
 - No additional information on modular building specifics.
