INTRODUCTORY SECTION

December 18, 2023

**TO THE HONORABLE MEMBERS AND CUSTOMERS OF
CHARLOTTESVILLE-ALBEMARLE AIRPORT AUTHORITY
CHARLOTTESVILLE, VIRGINIA**

I am pleased to submit the fiscal year 2023 Annual Comprehensive Financial Report of the Charlottesville-Albemarle Airport Authority (Authority) for your review and information.

This report is published in accordance with the requirements of the enabling legislation enacted by the Commonwealth of Virginia, creating the Authority and the master bond indenture of trust that governs the issuance of indebtedness by the Authority. Moreover, it was prepared in accordance with generally accepted accounting principles (GAAP), while the financial audit contained herein was performed in accordance with generally accepted auditing standards by a firm of licensed, certified public accountants. In addition to the distribution of this report to Authority Board members, this report is also being transmitted to others interested in the financial condition of the Authority as required by Federal Aviation Administration (FAA) regulations, as well as the Authority's bond indenture of trust.

Since this report consists of management's representations concerning the Authority's financial position, management assumes full responsibility for the completeness and reliability of all information presented. In order to provide a reasonable basis for making these representations, management has established a comprehensive internal control framework that has been designed to protect the Authority's assets from loss, theft, or misuse, as well as compiled sufficient reliable information for the preparation of the Authority's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the Authority's comprehensive framework of internal controls has been designed to provide reasonable rather than an absolute assurance that the financial statements will be free from material misstatement. As management, we assert that this report is complete and reliable in all material respects to the best of our knowledge and belief.

The goal of the independent audit is to provide reasonable assurance that the Authority's financial statements for the year ended June 30, 2023, are free of material misstatement. The independent audit involves examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and any significant estimates made by management, and evaluating the overall financial statement presentation. Based on their audit, the independent auditor concluded that there was a reasonable basis for rendering an unmodified ("clean") opinion and that the Authority's financial statements for the year ended June 30, 2023, conform to GAAP. The independent auditors' report is the first component of the Financial Section of this report.

The independent audit of the financial statements is part of the broader mandated provisions of the Single Audit Act of 1996 and Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), relative to financial funds received from the U.S. Government, the *Specifications for Audits of Authorities, Boards, and Commissions* issued by the Auditor of Public Accounts of the Commonwealth of Virginia relative to financial funds received from the Commonwealth of

Virginia, and also, in conformity with the provisions of the September 2000 *Passenger Facility Charge Audit Guide for Public Agencies* issued by the Federal Aviation Administration for its Passenger Facility Charge Program. The standards governing these provisions require the independent auditor to report on the fair presentation of the financial statements and the Authority's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. See the independent auditors' reports presented in the Compliance Section of this report for further information and discussion of these standards.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the financial statements in the form of a Management Discussion and Analysis (MD&A). One should read this letter of transmittal in conjunction with the MD&A that is located immediately following the independent auditors' report in the Financial Section of this report.

The information presented in the Financial Section of this report is best understood when it is considered from the broader perspective of the specific environment within which the Airport operates. The Authority's economic condition is a composite of its financial health and ability to meet its financial obligations and service commitments.

The Authority

The Authority was created by the 1984 Acts of Assembly, Chapter 390, Virginia General Assembly, and is currently operating under the Authority of the law of the Commonwealth of Virginia, Chapter 864 of the Acts of the Virginia General Assembly (2003) and is organized and exists as an independent political subdivision of the Commonwealth of Virginia.

The Authority is organized for the purpose of acquiring, constructing, reconstructing, maintaining, repairing, and operating an airport to serve the needs of the City of Charlottesville, Virginia (City), the County of Albemarle, Virginia (County), and the surrounding region. The Enabling Act provides that the Authority is authorized to issue revenue bonds for any of its purposes solely from the tolls and revenues pledged for their payment; to fix and revise from time to time and charge and collect rates, fees, rentals, and other charges for the use of the Airport; to make and enter into all contracts and agreements necessary or incidental to the performance of its duties and the execution of its powers under the Enabling Act, and to do all things necessary and convenient to carry out the powers under the Enabling Act, and to do all acts and things necessary and convenient to carry out the powers expressly granted in the Act. The Authority is also responsible for establishing financial policies. These policies had no significant impact on the current period's financial statements.

Prior to the creation of the Authority, the City and the County jointly operated the Airport through the Charlottesville-Albemarle Airport Board (Board). In October 1984, the Board conveyed the Airport to the Authority. By joint resolutions, the governing bodies of the City and County dissolved the Board, and the Authority commenced Airport operations. Neither the City nor the County is required to approve the issuance of bonds or incurrence of indebtedness by the Authority.

The Authority consists of three members: the City Manager of Charlottesville, or their principal assistant, as chosen by the City Council of Charlottesville; the County Executive of Albemarle County, or their principal assistant, as chosen by the Board of Supervisors of Albemarle; and one member of the Charlottesville-Albemarle Joint Airport Commission (Commission). The Commission is an advisory body comprised of Charlottesville and Albemarle County residents, as appointed by the City Council and the County Board of Supervisors.

Economic Conditions and Outlook Report

Stewart Key, Director of Marketing and Air Service

The Charlottesville-Albemarle Airport (CHO) is in the geographic center of the Commonwealth of Virginia, eight miles north of the City of Charlottesville. Bordered west by the Blue Ridge Mountains, CHO is strategically positioned midway between Boston, Massachusetts, and Atlanta, Georgia. Charlottesville and Albemarle County, CHO's primary markets, are business-minded with various industries, including manufacturing, federal, medical services, life sciences, and technology. It is a fundamentally sound region economically, with CHO serving as part of a well-developed air transportation network to the area. CHO's aviation efforts are supported by ten counties, with two of those counties across the Blue Ridge mountains in the Shenandoah Valley. Its outstanding location provides three major airlines with easy access to the largest airport hubs along the East Coast.

The Greater Charlottesville region continues its legacy of achieving the highest awards as a place to work, live, and retire. In addition to its highly regarded quality of life, this region possesses a diverse economy supported by vital commercial and business service sectors and education and health service industries anchored by the University of Virginia (UVA).

One of the most significant contributors to CHO's success is the University of Virginia (UVA), founded in 1819 by Thomas Jefferson. This public institution in Charlottesville, VA, is ranked twenty-fourth in universities nationwide and number five in Top Public Schools. The University of Virginia is ranked in the top twenty for Marketing, Management, Finance, and Nursing schools. UVA has almost 17,500 undergraduates enrolled, with tuition and fees of around \$22,000 annually.

Charlottesville, Virginia, has two high-performing hospitals within its city limits. The University of Virginia Medical Center is regionally ranked number three in the state, with its Children's Specialties ranking number nine in the country as reported by U.S. News and World Report. UVA Medical Center is a teaching hospital that does general medicine and surgical procedures. Sentara Martha Jefferson Hospital is ranked twelfth in Virginia with eight areas of high performance related to colon cancer, heart attacks, heart failure, spinal fusions, strokes, and maternity care, to name a few.

After the University of Virginia, the second largest economic generator for the area is the defense sector, with an annual impact of just over 1.2 billion dollars. The airport is just a few miles south of the National Ground Intelligence Center and the Defense Intelligence Agency. It is estimated that these military organizations generate thousands of airport travelers for CHO a year.

Virginia is ranked number six in the country with the most wineries, housing 291 vineyards and generating around \$5 billion for the economy. Charlottesville and the surrounding areas have world-class wines and beautiful scenery to enjoy. In Charlottesville and Albemarle County, there are over 40 wineries along the Monticello Wine Trail, one of Thomas Jefferson's many dreams for his mountaintop estate. The Monticello American Viticultural Area has won the Wine Region of the Year in Wine Enthusiast's 2023 Wine Star Awards. A short drive from Charlottesville in Nelson County is Route 151, where people can enjoy local food and 18 different Wineries, Breweries, Cideries, and a few Distilleries.

The 2024 outlook is positive for CHO and its surrounding counties. Air Service has not quite recovered from the strongest year of 2019. However, the upcoming schedule indicates capacity and frequency growth with additional daily service to destinations like Chicago starting in early 2024. The economic activity generated through the health care, biotechnology, government, and travel/tourism industries in this region will continue to yield opportunities for all forms of aviation to recover and grow at Charlottesville Albemarle Airport.

Airport Outlook

Melinda Crawford, Chief Executive Officer

The financial outlook of the Authority is primarily dependent upon the number of commercial passengers and the landed weights of aircraft utilizing CHO. As in prior years, passenger levels, in turn, are dependent upon several factors, including the economic condition of the airlines, which influences the airlines' ability to continue or add new flights or routes; the local and national economy, which affects the consumers' willingness to purchase air travel; and the cost of airline tickets.

In March 2020, the worldwide Coronavirus pandemic became a major factor impacting commercial air traffic at CHO. During fiscal year (FY) 2023, CHO continued to recover from this pandemic, and the following comparison is provided to show a snapshot of the impact that the pandemic has had on CHO's commercial operations and the recovery trend that CHO continues to experience:

- In June 2019, CHO had six destinations, 25 daily departures, 1,365 daily available seats, and an 82% load factor, with CHO serving 753,452 total passengers in FY19.
- In June 2020, CHO had three destinations, five daily departures, 291 daily available seats, and a 51% load factor, with CHO serving 563,131 total passengers in FY20.
- In June 2021, CHO had five destinations, 14 daily departures, 791 daily available seats, and an 88% load factor, with CHO serving 271,950 total passengers in FY21.
- In June 2022, CHO had five destinations, 18 daily departures, 1,113 available daily seats, and a 78% load factor, with CHO serving 518,854 total passengers in FY22.
- In June 2023, CHO had six destinations, 20 daily departures, 1,222 available daily seats, and a 78% load factor, with CHO serving 548,657 total passengers in FY23.

The 5.7% increase in passenger traffic in FY23 can be attributed to the expansion of air service by CHO's existing carriers and the arrival of a new carrier. Two major events triggered this expansion, and they occurred when American Airlines reinstated Philadelphia (PHL) daily non-stop service on April 4, 2023, and then on May 3, 2023 when Avelo Airlines began new twice-weekly commercial air service from CHO to Orlando International Airport (MCO) .

Shortly after the arrival of the new Avelo service, United Airlines also made a June 2nd announcement that their company would be reinstating daily non-stop service to Chicago O'Hare International Airport beginning on August 2, 2023. The return of this ORD service will provide CHO with the ability to serve all six of its pre-pandemic service destinations.

While commercial air service landing fees and terminal rental income account for a majority of the revenues produced at CHO, the revenues generated by the terminal Rental Car and Food/Beverage Concessionaires are significant and directly tied to the number of passengers utilizing the airport. During the early portion of the pandemic, the Authority recognized the financial struggles of its terminal tenants and concessionaires. In response to their hardship, the Authority waived all minimum annual guarantees required for those tenants, but they were still required to pay percentage rent per their agreements. This pandemic-related financial concession continued throughout FY22 and into FY23.

The pandemic-related fluctuation in passenger traffic was also a major factor in the Authority's decision to postpone the issuance of its Request For Proposals (RFP) for firms interested in operating an "On-Airport Rental Car Service Concession" at CHO Airport. This RFP was issued on July 26, 2022, and new rental car concession agreements went into effect on February 1, 2023. With the award of the new "On-Airport Rental Car" contracts, the Authority's pandemic-related financial concessions were terminated. and all terminal tenants were required to pay minimum annual guarantees and all other provisions in accordance with their agreements.

Capital Planning & Major Initiatives

The Authority adopts a six-year capital improvement program each year to dedicate funding for anticipated aviation safety, capacity, preservation, and security projects at CHO. The plan is designed to address deficiencies that have been identified with the Authority's infrastructure/facilities and to implement objectives and priorities with an overall goal of meeting the needs of CHO users while maximizing financial contributions from the Federal Aviation Administration (FAA), the Virginia Department of Aviation (VDOA), and the Authority's Passenger Facility Charge (PFC) program.

The design for a project to construct and install two covered walkways and two redundant elevator operating systems was completed in early 2021, and an invitation for bids was released. In April 2021, two bids were received for this construction project, with Kenbridge Construction Company being deemed the most responsive bidder. An FAA grant for \$4,136,760 was secured in August 2021 to fund 100% of this project's engineering and construction expenses. The Authority funded \$256,334 for landscaping and other expenses related to the project. This project was substantially completed in November 2022 except for a few remaining punch-list items that are still being addressed by the project engineers.

In March 2021, the Authority issued RFP #2021-02 "Removal and Installation of Two, Single Pair Escalators." As a result of this competitive negotiation process, a contract for \$1,986,000 was awarded to Schindler Elevator Corporation. This project required the closure of the Gate 5 area, which required the American Airlines' passenger waiting area to be relocated to a modular building near lower-level Gate 1. The Tailwind BlueRidge Gift Shop, located in the Gate 5 area, was also relocated to the Gate 4 area. During the time in which Gate 5 was closed to the public, the area was thoroughly cleaned and painted, and the terrazzo floors were re-finished. The installation of the new escalators was completed in September 2022, and the American Airlines' passenger holding area and the gift shop were relocated back to the Gate 5 area. The VDOA funded 80% of this project. The Authority provided the remaining 20% from authorized FAA Passenger Facility Charge funding.

The FAA also awarded a grant for \$291,400 in September 2020 to fund 100% of a design project to convert all airfield runway/taxiway lighting and signage to LED. Delta Airports Consultants completed the design phase of this project in the Spring of 2022. Two construction bids were received for this project, and a contract for \$3,778,225 was awarded to Austin Electrical Service Inc, deemed the most responsive bidder. The FAA awarded the following two grants to fund \$3,938,152 (90%) of this project:

1. An Airport Improvement Program (AIP) Grant for \$1,518,615
2. An Infrastructure Bipartisan Law (BIL) -Airport Infrastructure Grant (AIG) \$2,419,537.

The VDOA will fund the remaining 10% of this project, and the estimated completion date of this project is the winter of 2023.

The Authority secured the services of Parrish and Partners to complete its Terminal Area Master Plan. This \$750,000 study project will provide a comprehensive plan for terminal area development. The study was funded 100% by PFC revenues. This project is expected to be completed in the winter of 2023.

In September 2021, the Authority received an FAA grant for \$1,701,427. This grant will fund 100% of a project to purchase the following replacement equipment: 1) the Runway De-icer Truck at the cost of \$343,100, 2) The Ramp/Runway/Taxiway Loader at the cost of \$264,425, 3) an Aircraft Rescue Firefighting vehicle at the cost of \$696,718, and 4) an Airfield Snowplow at the cost of \$397,184. The Runway De-icer Truck, the Loader, the Aircraft Rescue and Firefighting Vehicle, and the Airfield Snowplow were received and put into service in FY23.

Capital Planning & Major Initiatives: (Continued)

In August 2022, the Authority received an FAA grant for \$644,040 to fund 90% to purchase an Airfield Snowblower. VDOA would have funded the remaining 10% for this equipment. However, the Authority incurred issues with the bids for the Airfield Snowblower and the Invitation to Bid (ITB) for that piece of equipment was canceled on June 29, 2023 and the FAA grant was returned. It is anticipated that a new ITB for the Airfield Snowblower will be issued in the future.

An informal solicitation of quotes for firms interested in providing services to clean and re-caulk the exterior of the terminal was also issued in August 2022. This contract was awarded to Nexus Caulking, LLC, in the amount of \$36,225. The project was completed in the spring of 2023 and 80% of the funding for this project was provided by VDOA with the remainder being funded by the Authority's discretionary funds.

A project to rehab the terminal ticketing area was started in the spring of 2023. This project will include upgrading the signage and lighting in the area, relocating some of the airline kiosks, and replacing the airline ticketing counters. The funding for a majority of this project will be derived from PFCs. This project is scheduled to be completed in 2024.

Other terminal projects continue to be addressed as the original terminal systems age and require refurbishment or replacement. Several terminal systems have also been identified for future improvement or replacement, including upgrading the baggage claim devices and four sets of automatic doors. A Request for Proposals (RFQ) for the "Removal and Installation of the Terminal Automatic Sliding Entrance Doors" was awarded in June 2023 to ASSA ABLOY in the amount of \$126,000. This project is expected to be completed in 2024.

A project to refurbish the Aircraft Rescue Firefighting Building is also slated to begin in FY24. The FAA environmental approval process for several projects in the Airport's Capital Improvement Six-Year Plan is also underway, and when completed, this approval process will allow other projects to move forward.

Financial Controls

Accounting and Budgetary Controls

Although no cost-effective set of accounting controls can guarantee complete freedom from unauthorized use of assets or errors in reporting financial data, existing Authority procedures provide reasonable assurance that assets are properly recorded and protected, and that financial information can be confidently used in the preparation of reports, historical summaries, and projections.

Because the Authority is designed to be a self-supporting and self-sustaining entity, the measurement focus of its financial accounting system is on the preservation of capital. Closely related to this accounting focus, which determines what is measured, is the basis of accounting, which determines when transactions are recognized. To this end, the Authority uses the full accrual basis of accounting, where revenues are recognized in the period in which they are incurred, regardless of the actual receipt or disbursement of cash.

The Authority is responsible for establishing and maintaining an internal control structure designed to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: 1) the cost of a control should not exceed the benefits likely to be derived from its use, and 2) the valuation of costs and benefits requires estimates and judgments by management.

Financial Controls: (Continued)

Accounting and Budgetary Controls: (Continued)

Through its Indenture of Trust and residual airline use agreement (which is currently in a hold-over status), the Authority is required to prepare and adopt an annual operating budget. The annual budget corresponds to the fiscal year (July 1- June 30), and is prepared and adopted as follows:

1. Division heads/account holders prepare preliminary operating budgets and submit them for compilation and review.
2. Airline rates and charges are calculated based upon the anticipated level of expenses, debt service, and capital asset acquisition.
3. The preliminary budget is presented to the airlines for review.
4. The preliminary budget is presented to the Authority for review and approval.
5. After adoption, the Authority may amend the annual budget at any time during the year. The budget lapses at the end of the fiscal year for all accounts except multi-year construction projects and specific re-appropriations for funds committed at year-end for which goods and/or services have not been received.

Airline Use Agreements

The Authority operates within the provisions of an Airline-Airport Use and Lease Agreement. The agreement is comprised of a revenue/deficit sharing arrangement whereby all year-end net income deficits are debited to signatory airlines. Other than the annual revenue covenant coverage appropriation to the Authority, the fiscal year budget is calculated to result in a break-even posture. All operational debt service is included in the airline rates. The use agreement allows a majority-in-interest vote for eligible airlines for capital improvement appropriations in excess of the annual operating budget and specifically defined costs. The current use agreement expired on June 30, 2010. A replacement agreement has not been completed but continues in negotiation. Both the airlines and the Airport continue to operate within the hold-over provisions established by the agreement, and the airlines continue to provide the required insurance, bonds, etc. until the new agreement is finalized.

Independent Audit

State statutes and federal regulations require that an annual audit be conducted for the Authority by an independent certified public accountant. The accounting firm of Robinson, Farmer, Cox Associates has been retained by the Authority for this purpose. In addition to meeting the requirements set forth in statutes, this audit is also designed to meet the requirements of the federal Single Audit Act of 1984 and related Uniform Guidance. The auditors' report on the basic financial statements is included in the financial section of this report, while reports relating to the single audit and the passenger facility charge program are in the compliance section.

Management's Discussion and Analysis

The management's discussion and analysis is included in the Financial Section of this report and is intended to provide the reader with an introduction to and overview of the Authority's financial statements.

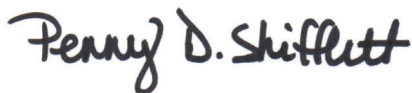

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Authority for its 2022 Annual Comprehensive Financial Report (ACFR). This represents thirty-two years that the Authority has received this Certificate. The Certificate of Achievement is a prestigious national award, recognizing conformance with the highest standards for the preparation of state and local government financial reports. To be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report, which conforms to established program standards. The Authority is confident that this report continues to conform to the Certificate of Achievement program requirements and will be submitted to GFOA for consideration for the award.

Acknowledgments

While preparation of the annual comprehensive financial report is completed by the Chief Executive Officer and the Chief Financial Officer, the participation and performance of all purchasers and managers are crucial for the financial success of the Airport. In addition, the leadership of the Chief Executive Officer and the Authority Board in setting the highest financial standards for professionalism create the framework in which the staff can undertake the mission of providing an economical, safe, and pleasing airport environment conducive to allowing all forms of air travel to thrive for the benefit of Charlottesville, Albemarle, and surrounding communities.

Respectfully submitted,

A handwritten signature in black ink that reads "Penny D. Shifflett". The signature is written in a cursive, flowing style.

Independent Auditors' Report

**To The Honorable Members of The
Charlottesville-Albemarle Airport Authority
Charlottesville, Virginia**

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of the business-type activities of Charlottesville-Albemarle Airport Authority, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of Charlottesville-Albemarle Airport Authority, as of June 30, 2023, and the changes in financial position, and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Authorities, Boards, and Commissions*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Charlottesville-Albemarle Airport Authority, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Change in Accounting Principle

As described in Note 15 to the financial statements, in 2023, the Authority adopted new accounting guidance, GASB Statement No. 96, *Subscription-Based IT Arrangements (SBITAs)*. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibilities of Management for the Financial Statements (Continued)

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Charlottesville-Albemarle Airport Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the *Specifications for Audits of Authorities, Boards, and Commissions* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the *Specifications for Audits of Authorities, Boards, and Commissions*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Charlottesville-Albemarle Airport Authority's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Charlottesville-Albemarle Airport Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and schedules related to pension and OPEB funding as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Report on Summarized Comparative Information

We have previously audited the Charlottesville-Albemarle Airport Authority's 2022 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated January 17, 2023. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2022, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Charlottesville-Albemarle Airport Authority's basic financial statements. The accompanying other supplementary information and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

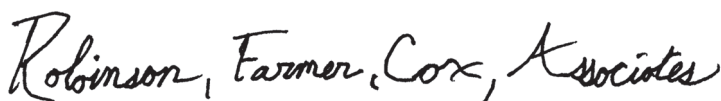

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditors' report thereon. Our opinion on the basic financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 18, 2023, on our consideration of Charlottesville-Albemarle Airport Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Charlottesville-Albemarle Airport Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Charlottesville-Albemarle Airport Authority's internal control over financial reporting and compliance.

Charlottesville, Virginia

December 18, 2023

MANAGEMENTS' DISCUSSION AND ANALYSIS

This Management Discussion and Analysis (MD&A) provides an introduction and overview to the Authority's financial statements for the fiscal year ended June 30, 2023. It is unaudited and should be read in conjunction with the financial statements, and notes thereto, which follow in this section.

Basic Financial Statements

The Authority's basic financial statements include three statements: the Statement of Net Position, the Statement of Revenues, Expenses and Changes in Net Position and the Statement of Cash Flows. The financial statements are prepared in accordance with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB).

The Statement of Net Position depicts the Authority's financial position on June 30, 2023, the end of the Authority's fiscal year. The Statement shows all of the financial assets and liabilities of the Authority. Net position is the difference between a) assets and deferred outflows of resources and b) liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position.

The Statement of Revenues, Expenses and Changes in Net Position reports operating revenues, operating expenses, nonoperating revenues, nonoperating expenses, contributed capital and changes in net position during the fiscal year ended June 30, 2023. The Statement of Revenues, Expenses and Changes in Net Position is prepared on the accrual basis, recognizing revenue when earned and expenses when incurred.

The Statement of Cash Flows presents information on how the Authority's cash and cash equivalents position changed during the fiscal year, as well as illustrates the reconciliation of operating income to net cash provided by operating activities. Cash receipts and payments are classified as Operating Activities, Capital and Related Financing Activities, and Investing Activities.

Airport Activities and Highlights

From an operational standpoint, the Authority had a steady increase in activity in relation to the prior fiscal due to the effects of COVID spread worldwide. Passenger enplanements increased 5% to 275,002. Parking revenue increased 14% and airline revenue increased 5.2%. Both of these revenue streams are directly related to the increase in passenger traffic.

Airport Activities and Highlights: (Continued)

In FY23, the Authority experienced increases in enplanements and landed weights due to continued recovery from the pandemic.

	FY 2023	FY 2022	FY 2021
Enplanements (persons)	275,002	261,826	135,632
Aircraft Landed Weights (1000's of lbs)	340,689	323,612	203,130
Operations (take-off & landings):			
Commercial	29,756	30,802	24,526
General Aviation	77,974	79,705	75,459
Military	13,392	15,246	12,545
Total Operations	121,122	125,753	112,530

Financial Highlights

Summary of Operations & Changes in Net Position

A summary of the Authority's Operations and Changes in Net Position at June 30, 2023 is set forth below:

Summary of Operations & Changes in Net Position	2023	2022	2021
Operations:			
Revenues	\$ 7,822,469	\$ 6,907,727	\$ 4,147,547
Expenses	<u>(8,635,203)</u>	<u>(6,983,838)</u>	<u>(6,301,373)</u>
Income/(loss) before depreciation & nonoperating income/(expenses)	(812,734)	(76,111)	(2,153,826)
Nonoperating income/(expenses)	<u>253,948</u>	<u>4,958,656</u>	<u>5,688,391</u>
Income/(loss) before capital contributions & depreciation	(558,786)	4,882,545	3,534,565
Depreciation	<u>(5,009,242)</u>	<u>(4,736,755)</u>	<u>(4,547,117)</u>
Income/(loss) before capital contributions	(5,568,028)	145,790	(1,012,552)
Capital contributions	<u>9,942,263</u>	<u>9,058,379</u>	<u>6,146,249</u>
Net Position:			
Increase in net position	4,374,235	9,204,169	5,133,697
Total net position, beginning of year	135,684,875	126,480,706	121,347,009
Total net position, end of year	\$ 140,059,110	\$ 135,684,875	\$ 126,480,706

The 3.22% increase in net position for FY23 is primarily related an increase in overall activity due to continued recovery from the pandemic as well as an increase in capital project activity.

Operating & Non-operating Revenue Highlights

The following chart shows the major sources and percentage of operating revenues for the fiscal year ended June 30, 2023:

As illustrated in the Statistical section of this document, parking revenue, airline revenue and rental car revenue have remained the primary sources of revenues; parking revenue was 46% of operating revenue in FY 2014 to 46% in FY 2023. Rental car revenue slightly increased from 15% in FY2014 to 16% in FY2023, and airline revenue slightly decreased from 18% in FY2014 to 16% in FY2023.

A summary of revenues for the year ended June 30, 2023 follows:

Summary of Revenues	2023	2022	2021
Operating:			
Parking Revenues	\$ 3,571,752	\$ 3,129,817	\$ 1,414,966
Airline Revenues	1,231,771	1,170,592	680,708
Rental Car Revenues	1,233,583	1,097,975	682,027
Other Terminal Revenues	534,311	613,601	494,482
FBO (General Aviation)	610,186	586,959	467,263
Other Airfield Revenues	640,866	308,783	408,101
Total Operating Revenues	\$ 7,822,469	\$ 6,907,727	\$ 4,147,547
Nonoperating:			
Interest Income	\$ 76,961	\$ 20,990	\$ 11,460
Gain (loss) on disposal of assets	-	5,300	-
Insurance recovery	-	-	45,281
Other Income	50,330	-	-
COVID and State grants	309,835	5,103,358	5,804,271
Total Nonoperating Revenues	\$ 437,126	\$ 5,129,648	\$ 5,861,012
Total Revenues Prior to Capital Contributions	\$ 8,259,595	\$ 12,037,375	\$ 10,008,559
Capital Contributions	9,942,263	9,058,379	6,146,249
Total Revenues	\$ 18,201,858	\$ 21,095,754	\$ 16,154,808

The increases in almost all of the operating revenue items are directly related to the continuing recovery from the pandemic.

Nonoperating revenues decreased 92% attributed to the decrease of federal COVID funding received in FY23 as compared to FY22.

Capital Contributions

Capital contributions increased by 10% in FY23.

Operating & Nonoperating Expense Highlights

The following chart illustrates the major sources and percentage of operating expenses for the fiscal year ended June 30, 2023:

Wages includes all employee wages except administrative wages, and all Authority-paid taxes and benefits, as well as associated employee costs such as training and uniforms. Administrative costs are traditional indirect expenses and include administrative wages and employee costs, advertising and promotion expense, legal expenses, and miscellaneous professional fees. Maintenance expenses cover not only traditional building systems, but landside, roadway, and airfield pavement, lighting systems and equipment repairs as well.

A summary of the expenses for the year ended June 30, 2023 follows:

Summary of Expenses	2023	2022	2021
Operating:			
Wages & Employee Expense	\$ 3,832,042	\$ 3,453,858	\$ 3,117,555
Administrative (Indirect)	2,232,017	1,639,305	1,600,153
Maintenance	1,503,530	936,477	956,502
Utilities	475,111	411,166	336,447
Insurance	123,906	123,494	110,274
Miscellaneous	468,597	419,538	180,442
Total Operating Expenses	\$ 8,635,203	\$ 6,983,838	\$ 6,301,373
Nonoperating:			
Interest Expense	\$ 18,023	\$ 21,030	\$ 14,445
Rental Car Service Facility Expense	165,155	149,962	132,842
Bond issuance costs	-	-	25,334
Total Nonoperating Expenses	\$ 183,178	\$ 170,992	\$ 172,621
Total Expenses	\$ 8,818,381	\$ 7,154,830	\$ 6,473,994

Overall, the Authority has been able to keep expenses relatively steady during the pandemic. The increases noted from FY22 to FY23 in the wages, utilities and insurance categories are attributed to inflation and overall rising costs.

Financial Position Summary

The Statement of Net Position reports the Authority's financial position as of June 30, 2023. It represents the Authority's assets and deferred outflows of resources after deducting liabilities and deferred inflows of resources. Assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$140,059,110 at June 30, 2023, a 3.22% or \$4,374,235 increase over June 30, 2022.

A condensed summary of the Authority's total net position at June 30, 2023 is set forth below:

	2023	2022	2021
Assets:			
Current unrestricted assets	\$ 13,736,875	\$ 14,647,695	\$ 10,482,854
Restricted assets	16,329,602	13,843,621	12,287,351
Noncurrent assets	9,736,727	6,234,067	-
Capital assets	116,361,589	112,763,727	108,925,109
Total assets	\$ 156,164,793	\$ 147,489,110	\$ 131,695,314
 Deferred outflows of resources	 \$ 722,231	 \$ 909,469	 \$ 801,473
Liabilities:			
Current liabilities	\$ 1,880,793	\$ 1,841,075	\$ 1,635,857
Noncurrent liabilities	3,535,131	3,436,637	4,362,499
Total liabilities	\$ 5,415,924	\$ 5,277,712	\$ 5,998,356
 Deferred inflows of resources	 \$ 11,411,990	 \$ 7,435,992	 \$ 17,725
Net Position:			
Net investment in capital assets	\$ 113,242,543	\$ 109,257,406	\$ 105,334,494
Restricted	16,329,586	13,843,605	12,287,335
Unrestricted	10,486,981	12,583,864	8,858,877
Total Net Position	\$ 140,059,110	\$ 135,684,875	\$ 126,480,706

Net Position is comprised of three components as follows:

Investment in capital assets (e.g. land, buildings, equipment, etc.) net of depreciation and less the outstanding indebtedness used to acquire the assets, increased 3.6% which resulted from an increase in capitalized projects. This category represents 81% of the Authority's net position as of June 30, 2023.

Restricted net position (12% of total net position) includes funds that are restricted in use such as the PFC funds, federal and state grant funds, and Customer Facility Charge (CFC) funds less related liabilities. The increase of 18% in the restricted cash balance in these funds compared to June 30, 2022 is the result of the accumulation of PFC funds and an increase in restricted funds for Capital Projects.

Unrestricted net position is allocable for any reason by the Airport Authority. Unrestricted net position represents current assets and pension and OPEB related deferred outflows of resources less current liabilities (other than notes payable) less accrued leave less net pension liability, net OPEB liability, and pension and OPEB related deferred inflows of resources. At June 30, 2023, there was a 17% decrease in unrestricted net position compared to June 30, 2022. This increase is attributed to the ARPA grant revenue that was recognized in 2022.

Summary of Cash Flow Activities

Net cash provided by the operation of negative \$690,497 is a 104%, or \$352,289 increase from the prior year. This was due to the decrease in cash received from Federal Covid related grants in FY2023 compared to FY2022.

Airline Signatory Rates and Charges

The Authority and its commercial service airlines are negotiating a renewal of the signatory airline use agreement originally executed in fiscal year 2002, which utilized a full residual rate-making methodology. This agreement allowed the Authority to include debt service in the rates and charges and to invoice airlines for any year-end deficit to meet bond and operating requirements. Net income above the budgeted amount was returned to the signatory airlines in the form of an airline settlement at the conclusion of the fiscal year. The contract expired June 30, 2010 placing the airlines in a holdover position which does not require for the distribution of the airline settlement. A replacement agreement has not been completed but continues in negotiation. Rates and charges for the airlines over the last 36 months are as follows:

	FY 2023	FY 2022	FY 2021
Landing Fees (1,000 lbs unit)	2.07	2.07	2.07
Average Terminal Rental Rates (s.f.)	26.45	22.99	14.13
Airline Cost per Enplanement	4.48	4.47	5.02

Once the pandemic started affecting all aspects of the travel industry, the airport allowed the airlines to no longer pay a set monthly terminal rental fee and began charging the airlines a monthly rental fee based on enplaned passengers. This methodology appeared to be the most rational formula in that it allowed the cost per enplaned passenger to remain attractive to the airlines which was viewed very favorably by the airlines. The reduction in the average terminal rental rates in FY21 is directly related to this change for the airlines rates and charges. The increases in the average terminal rental rates for FY22 and FY23 are directly related to increased activity since the pandemic. This methodology started during FY20 and remained in effect throughout FY23.

Financial Statements

The Authority's financial statements are prepared on an accrual basis in accordance with U.S. generally accepted accounting principles promulgated by the Governmental Accounting Standards Board (GASB). The Authority is structured as a single enterprise fund with revenues recognized when earned and expenses when incurred. Capital assets, excluding land, are capitalized and depreciated over their useful lives. Funds are restricted for debt service and, where applicable, for construction activities. See Notes to the Financial Statements for a summary of the Authority's significant accounting policies.

Capital Acquisitions and Construction Activities

During FY 2023, the Authority expended \$8,607,104 on capital activities. These included construction projects mainly related to the Airfield lighting and Signage, the parking lot elevator and stairs, and escalator replacement. Additional information may be found in the Notes to Financial Statements section of this document, Note 6 – Changes in Capital Assets and Construction in Progress.

Capital Acquisitions and Construction Activities: (Continued)

Capital acquisitions totaling \$9,757,504 were comprised of the following:

<i>Capitalized Item</i>	<i>Value</i>
Parking lot elevator and stairs	\$ 5,525,891
Sega gate replacement	17,882
Escalator replacement	2,216,299
QTA wash rack	51,030
Vacuum system	20,658
Vehicles and equipment	1,104,781
Fire truck	760,372
Other	60,591
Total	\$ 9,757,504

Long Term Debt Administration

In 2014, the Authority issued \$1,612,000 in taxable Series 2014 Airport Revenue Bonds dated October 30, 2014 maturing annually from 2016 through 2025 with interest of 1.570%. The balance outstanding as of June 30, 2023 was \$447,615.

In 2021, the Authority issued \$1,949,031 in Series 2021 Airport Revenue Bonds dated June 3, 2021 maturing annually from 2021 through 2031 with interest of 0.560% for parking lot expansion refinancing. The balance outstanding as of June 30, 2023 was \$1,567,833.

Currently, all of the Authority's debt is funded with the Virginia Resource Authority, and as such, the Authority does not have an active credit rating. Additional information on the Authority's Bonds can be found in Note 7 – Long-Term Obligations in the Notes to the Financial Statements.

Passenger Facilities Charge (PFC)

In June 1992, the FAA authorized the Authority to impose a PFC in accordance with section 158.29 of the FAA Regulations (Title 14, Code of Federal Regulations, Part 158). The charge was instituted on September 1, 1992 and consisted of a \$2.00 charge per passenger, less airline fees. PFC's are collected by the airline carriers and remitted to the Authority on a monthly basis. These funds are authorized to be collected until the amount of funds collected plus interest earned equals the allowable costs approved by the FAA for certain capital projects.

In January 1995, the FAA authorized the imposition of a new \$3.00 PFC, which was remitted to the Authority on a monthly basis. In October 2004, the FAA authorized an increase in the collection level from \$3.00 to \$4.50.

The last application that was approved by the FAA was PFC Application No 23-25-C-00-CHO in October of 2022. This application authorized the collection of \$5,617,814 and is a reimbursement of Virginia State Entitlements used on the ramp expansion and escalator replacement projects. The new current expiration date is now June 1, 2026.

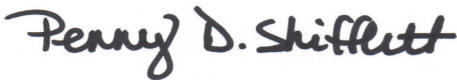

Pension and OPEB Programs

The Authority is a member of the Virginia Retirement System (VRS). VRS is the public employees' retirement plan for Commonwealth of Virginia employees. Municipalities, counties and local public agencies may elect to join VRS. The Authority contributes a percentage of payroll to VRS on behalf of its fulltime employees, the rate set bi-annually by VRS as actuarially determined (10.78% during FY 2023). Employees are also provided group life insurance benefits through VRS. The Authority contributes a percentage of payroll to VRS on behalf of its fulltime employees, the rate set by VRS as actuarially determined (1.34% during FY 2023 (allocated into an employee and employer component using a 60 (.80%)/40 (.54%) split)).

Request for Information

This financial report is designed to provide a general overview of the Authority's financial condition and activities. Questions concerning any of the information provided in this report or requests for additional information should be addressed in writing to the Chief Financial Officer, Charlottesville - Albemarle Airport Authority, 100 Bowen Loop Suite 200, Charlottesville, VA 22911.

Respectfully submitted,

A handwritten signature in black ink that reads "Penny D. Shifflett". The signature is written in a cursive, flowing style.

CHARLOTTESVILLE-ALBEMARLE AIRPORT AUTHORITY

Notes to Financial Statements At June 30, 2023

NOTE 1 – FINANCIAL REPORTING ENTITY:

The Charlottesville-Albemarle Airport Authority (the “Authority”) was created July 1, 1984 by the Virginia General Assembly, Acts of the Assembly, Chapter 390, 1984 Session. In October 1984, the Airport Board deeded the airport to the Authority, and the Virginia Aviation Commission and Federal Aviation Administration approved the transfer of the Board’s operating license to the Authority. The members of the Board became the members of the Authority, and day-to-day operations of the airport were unchanged. The Authority is organized and exists as a political subdivision of the Commonwealth of Virginia. In 2003, the Act was replaced by Chapter 864 of the Acts of the Virginia General Assembly (2003).

The Authority is organized for the purpose of acquiring, constructing, reconstructing, maintaining, repairing and operating an airport to serve the needs of the City of Charlottesville, Virginia (the “City”), the County of Albemarle, Virginia (the “County”), and the surrounding region. The Act provides that the Authority is authorized to issue revenue bonds for any of its purposes payable solely from the tolls and revenues pledged for their payment; to fix and revise from time to time and change collect tolls, rates, fees, rentals and other charges for the use of the Airport; to make and enter into all contracts and agreements necessary or incidental to the performance of its duties and the execution of its powers under the Act and to do all acts and things necessary and convenient to carry out the powers expressly granted in the Act.

The Authority is a legally separate organization whose board consists of three members: one, the City Manager of the City, or his or her principal assistant, as chosen by the City Council of the City; one, the County Executive of the County, or his or her principal assistant, as chosen by the Board of Supervisors of the County; and one from the membership of the Charlottesville-Albemarle Joint Airport Commission (the “Commission”), an advisory body created by the Act. Since neither the City nor County can impose its will on the Authority and since there is no potential financial benefit or burden relationship, the City and the County are not financially accountable for the Authority. As such, the Authority is not considered a component unit of either the City or County.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Financial Statement Presentation

Basis of Accounting - The accounts of the Authority are accounted for on the flow of economic resources measurement focus and utilize the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. All Authority accounts are financed and operated in a manner similar to private business or where the board has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability.

Operating revenues and expenses result from providing services in connection with air transportation. The principal operating revenues of the Authority are charges to customers for sales and services.

Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

CHARLOTTESVILLE-ALBEMARLE AIRPORT AUTHORITY

Notes to Financial Statements
At June 30, 2023 (Continued)

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

Prior year totals on the financial statements are presented for informational purposes only. Certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

Cash and Cash Equivalents – For purposes of the statement of cash flows, the Authority considers their demand deposits and all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents.

Investments – Investments with a maturity of less than one year when purchased, non-negotiable certificates of deposit, other nonparticipating investments, and external investment pools are stated at cost or amortized cost. Investments with a maturity greater than one year when purchased are stated at fair value. Fair value is the price that would be received to sell an investment in an orderly transaction at year end.

Restricted Assets – Restricted assets consist of monies and other resources as described below:

Capital Funds – Proceeds restricted for designated capital projects that cannot be expended for any other item.

Passenger Facility Charge Funds – Passenger Facility Charge (PFC) collections are based on FAA approval to impose and collect such charges from the airlines serving the Airport. These funds are restricted for designated projects and/or FAA approved debt incurred to finance the construction of projects.

Revenue Bond Funds – 2014 and 2021 airport revenue refunding bond proceeds held in Escrow Funds.

Renewal and Replacement Funds – The Authority's Indenture of Trust required the establishment of a \$150,000 Replacement Fund that may be used to make transfers to the Revenue Fund for reasonable and necessary Operation and Maintenance expenses. Any funds used from the Replacement Fund must be repaid in 48 equal monthly deposits. Once all outstanding bonds are redeemed, the funds on deposit in the Replacement Fund may be used by the Authority for any lawful purpose.

State Entitlement Fund – The Authority receives annual entitlement fund allocations from the Virginia Department of Aviation which are required to be maintained in a separate, interest-bearing account. The use of the funds is restricted for purposes established by the Virginia Aviation Board. In addition, the Authority is allowed to apply for PFC Funds that are reimbursements of State Entitlement Funds. Once the application is approved, the funds collected are considered State Entitlement Funds and are restricted for purposes established by the Virginia Aviation Board.

CFC Revenue Fund, CFC General Fund and QTA Maintenance Fund - Customer Facility Charge (CFC) collections from rental car concessionaires are deposited in the CFC Revenue Fund. Debt service for the rental car service facility is paid and the excess of the funds are transferred to the CFC General Fund to pay certain expenses associated with the service facility. Funds from the CFC General fund are transferred to the QTA Maintenance Fund for future long term maintenance expenses.

CHARLOTTESVILLE-ALBEMARLE AIRPORT AUTHORITY

Notes to Financial Statements
At June 30, 2023 (Continued)

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

Debt Reserve Funds – funds held in reserve for 2021 Virginia Resources Authority bonds.

Allowance for Uncollectible Accounts – The Authority calculates its allowance for specific accounts using historical collection data and in certain cases, specific account analysis. Historical collection data indicates that any uncollectible amounts would be negligible. Accordingly, an allowance for uncollectible accounts has not been established.

Prepaid items – These assets represent expenses which have been prepaid, including insurance. The cost of prepaid items is recorded as expenses when consumed rather than when purchased.

Capital Assets – Capital Assets are carried at original historical cost. However, donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are reported at acquisition. Depreciation (including amortization of intangible assets) is computed on the straight-line method over the following estimated lives:

Parking lots and roadways.....	5-7 years
Intangible assets	5-20 years
Airfield	5-30 years
Hangar	5-40 years
Terminal.....	5-40 years
Vehicles.....	5-10 years
Furniture and fixtures.....	5-10 years
Computer acquisition	3 years
Lease assets.....	2-17 years
Subscription asset.....	2 years

When capital assets are sold or retired, the related cost and accumulated depreciation are removed from the accounts, and any gain or loss is included in the results of operations. Depreciation expense for the year ended June 30, 2023 was \$5,009,242. The Authority’s current Capital Asset Classification is that any asset or any addition to an asset or improvement of an asset shall be classified as a depreciable asset if the value of the purchase is \$10,000 or more, is purchased from the coverage fund, capital fund or revenue, has an estimated useful life of 3 years or more; and, is considered one of the following: a) equipment, b) vehicle, c) building or improvement, d) airfield equipment or improvement, e) hangar or improvement, or f) intangible asset.

Intangible assets lack physical substance and have a nonfinancial nature and an initial useful life extending beyond a single reporting period.

CHARLOTTESVILLE-ALBEMARLE AIRPORT AUTHORITY

Notes to Financial Statements
At June 30, 2023 (Continued)

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

Deferred Outflows of Resources – In addition to assets, the statement of financial position includes a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The Authority has multiple items that qualify for reporting in this category:

This is comprised of certain items related to pension and OPEB. For more detailed information on these items, reference the related notes.

Deferred Inflows of Resources – In addition to liabilities, the statement of financial position includes a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Authority has one type of item that qualifies for reporting in this category:

Certain items related to pension, OPEB, and leases are reported as deferred inflows of resources. For more detailed information on these items, reference the related notes.

Pensions – For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Authority's Retirement Plan and the additions to/deductions from the Authority's Retirement Plan's fiduciary net position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Postemployment Benefits (OPEB) – For purposes of measuring the net VRS related OPEB liability, deferred outflows of resources and deferred inflows of resources related to the OPEB, and OPEB expense, information about the fiduciary net position of the VRS GLI OPEB Plan and the additions to/deductions from the VRS OPEB Plan's fiduciary net position have been determined on the same basis as they were reported by VRS. In addition, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Indirect Expenses – Indirect expenses are charged to various cost centers utilizing the ratios as determined by annual airline rates and charges negotiations. These allocations are made to each cost center from total indirect expenses before depreciation.

Unrestricted Net Position – Unrestricted net position consists of monies and other resources as described below.

Revenue – Funds used for the daily operations of the Airport Authority.

Coverage Fund – Reserve account established by Indenture of Trust and Airline Use Agreement where the Authority deposits coverage payments from airlines. The Authority may designate use of the funds for capital projects or equipment acquisition.

Discretionary Fund – Funds that are segregated that are not related, in any way, to the airline agreement.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

Net Position – The difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources is called net position. Net position is comprised of three components: net investment in capital assets, restricted, and unrestricted.

- Net investment in capital assets consists of capital assets, net of accumulated depreciation/ amortization and reduced by outstanding balances of bonds, notes, and other debt that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are included in this component of net position.
- Restricted net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Assets are reported as restricted when constraints are placed on asset use either by external parties or by law through constitutional provision or enabling legislation.
- Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that does not meet the definition of the two preceding categories.

Sometimes the Authority will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Authority's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

Leases and Subscription-Based IT Arrangements

The Authority has various lease assets and subscription-based IT arrangements (SBITAs) requiring recognition. A lease is a contract that conveys control of the right to use another entity's nonfinancial asset. Lease recognition does not apply to short-term leases, contracts that transfer ownership, leases of assets that are investments, or certain regulated leases. A SBITA is defined as a contract that conveys control of the right to use another party's (a SBITA vendor's) information technology (IT) software, alone or in combination with tangible capital assets (the underlying IT assets), as specified in the contract for a period of time in an exchange or exchange-like transaction.

Lessor

The Authority recognizes leases receivable and deferred inflows of resources. At commencement of the lease, the lease receivable is measured at the present value of lease payments expected to be received during the lease term, reduced by any provision for estimated uncollectible amounts. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is measured at the initial amount of the lease receivable, less lease payments received from the lessee at or before the commencement of the lease term (less any lease incentives).

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

Subscriptions

The Authority recognizes intangible right-to-use subscription assets (subscription assets) and corresponding subscription liabilities with an initial value of \$3,500, in individually or in the aggregate, in the government-wide financial statements. At the commencement of the subscription, the subscription liability is measured at the present value of payments expected to be made during the subscription liability term (less any contract incentives). The subscription liability is reduced by the principal portion of payments made. The subscription asset is measured at the initial amount of the subscription liability payments made to the SBITA vendor before commencement of the subscription term, and capitalizable implementation costs, less any incentives received from the SBITA vendor at or before the commencement of the subscription term. The subscription asset is amortized over the shorter of the subscription term or the useful life of the underlying IT asset.

Key Estimates and Judgments

Lease accounting includes estimates and judgments for determining the (1) rate used to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The Authority uses the interest rate stated in lease or subscription contracts. When the interest rate is not provided or the implicit rate cannot be readily determined, the Authority uses its estimated incremental borrowing rate as the discount rate for leases and subscriptions.
- The lease and subscription terms include the noncancellable period of the lease or subscription and certain periods covered by options to extend to reflect how long the lease or subscription is expected to be in effect, with terms and conditions varying by the type of underlying asset.
- Fixed and certain variable payments as well as lease or subscription incentives and certain other payments are included in the measurement of the lease receivable (lessor), lease liability (lessee) or subscription liability.

The Authority monitors changes in circumstances that would require a remeasurement or modification of its leases and subscriptions. The Authority will remeasure the lease receivable and deferred inflows of resources (lessor), the lease asset and liability (lessee) or the subscription asset and liability if certain changes occur that are expected to significantly affect the amount of the lease receivable, lease liability or subscription liability.

Regulated Leases

The leases between the Authority and air carriers and other aeronautical users are subject to external laws, regulations, or legal rulings. The Authority recognizes inflows of resources (revenue) based on the payment provisions of the lease contract.

CHARLOTTESVILLE-ALBEMARLE AIRPORT AUTHORITY

Notes to Financial Statements
At June 30, 2023 (Continued)

NOTE 3 – RESTRICTED ASSETS:

The income, principal cash and investments shown on the statement of net position at June 30, 2023 consist of the following:

	Cash & Cash			Total
Restricted Assets:	Equivalents	Receivables		Restricted Assets
Capital Projects	\$ 862,648	\$ 1,220,101	\$	2,082,749
PFC Fund	2,031,808	211,381		2,243,189
State Entitlement Fund	8,457,685	-		8,457,685
Renewal & Replacement	159,553	-		159,553
CFC Fund	2,998,106	72,899		3,071,005
Bond Fund	114,096	-		114,096
Debt Reserve Fund	201,325	-		201,325
Total Restricted Assets	\$ 14,825,221	\$ 1,504,381	\$	16,329,602

NOTE 4 – DEPOSITS AND INVESTMENTS:

Deposits: Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the “Act”) Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments: Statutes authorize local governments and other public bodies to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, “prime quality” commercial paper that has received at least two of the following ratings: P-1 by Moody’s Investors Service, Inc.; A-1 by Standard & Poor’s; or F1 by Fitch Ratings, Inc. (Section 2.2-4502), banker’s acceptances, repurchase agreements, and the State Treasurer’s Local Government Investment Pool (LGIP).

NOTE 4 – DEPOSITS AND INVESTMENTS: (CONTINUED)

Custodial Credit Risk (Investments)

The Authority has a formal investment policy. In addition to the requirements set forth by the Code of Virginia, all bond investments are governed by the Authority's Indenture of Trust. The Indenture requires that all money held in funds or accounts established under the Indenture shall be separately invested and reinvested pursuant to the Code of Virginia requirements for the investment of public funds. In addition, the Indenture sets forth the evaluation of the investments as well as securities for deposits.

As of June 30, 2023, all Authority funds were held in interest-bearing accounts and investments were invested pursuant to the Code of Virginia requirements for the investment of public funds.

The Authority's money market mutual funds investments of \$114,096 on June 30, 2023 were held in the Authority's name by the Authority's custodial bank. The investments were rated AAAM by Standard & Poor's.

The following is a reconciliation of cash and investments for the fiscal year ended June 30, 2023:

Summary of Cash and Investments:	
Cash on hand and cash items	\$ 6,500
Carrying value of deposits	26,611,544
Investments	114,096
Total	<u>\$ 26,732,140</u>
Per Financial Statements:	
Cash and cash equivalents:	
Operating	\$ 11,906,919
Restricted Capital Projects	862,648
Restricted PFC Fund	2,031,808
Restricted CFC Fund	2,998,106
Restricted Renewal & Replacement	159,553
Restricted Entitlement	8,457,685
Restricted Bond Funds	114,096
Restricted Debt Reserve Funds	201,325
Total per financial statements	<u>\$ 26,732,140</u>

Interest Rate Risk

The Authority does not have a formal interest rate risk policy.

NOTE 4 – DEPOSITS AND INVESTMENTS: (CONTINUED)

Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Authority categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The Authority maximizes the use of observable inputs and minimizes the use of unobservable inputs. Observable inputs are inputs that market participants would use in pricing the asset or liability based on market data obtained from independent sources. Unobservable inputs reflect assumptions that market participants would use in pricing the asset or liability based on the best information available in the circumstances. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels as follows:

- Level 1. Quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at a measurement date
- Level 2. Directly or indirectly observable inputs for the asset or liability other than quoted prices
- Level 3. Unobservable inputs that are supported by little or no market activity for the asset or liability

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk.

The Authority has the following recurring fair value measurements as of June 30, 2023:

		Fair Value Measurements Using		
		Quoted Prices in Active Markets or Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
	<u>6/30/2023</u>			
Money Market Mutual Funds	\$ 114,096	\$ 114,096	\$ -	\$ -

NOTE 5 – ACCOUNTS RECEIVABLE:

Details of changes in Accounts Receivable for the fiscal year ended June 30, 2023 are as follows:

	Non Restricted	Restricted	Total Accounts
	Assets	Assets	Receivable
Accounts Receivable			
Operating	\$ 322,792	\$ -	\$ 322,792
Capital	-	1,220,101	1,220,101
Passenger Facility Charge	-	211,381	211,381
Rental Car Facility Charge	-	72,899	72,899
	<u>\$ 322,792</u>	<u>\$ 1,504,381</u>	<u>\$ 1,827,173</u>

Accounts Receivable – Operating consists of invoices to airport tenants including airlines, rental car concessionaires, fixed base operators and other firms doing business at the airport, as well as the CARES and CRRSA grant funds. Operating receivables decreased \$5,723,683 from fiscal year 2022.

Capital Receivable – Capital increased \$181,524 over fiscal year 2022 due to the timing of project expenditures and the related filings of reimbursements. Capital consists of expenditures in construction in progress filed for reimbursement with the Federal Government in the amount of \$1,220,101.

Passenger Facility Charge- Passenger facility charge receivables represent the accrual for funds received in July and August 2023 for the period June 2023.

Rental Car Facility Charge – Customer facility charge receivables represent the accrual for funds received in July 2023 for the period June 2023.

NOTE 6 – CHANGES IN CAPITAL ASSETS AND CONSTRUCTION IN PROGRESS:

Net capital assets increased \$3,597,862 as the result of the net project activity and other capital asset purchases exceeding depreciation. It is the Authority's practice for capital projects with land acquisitions to be recorded in the CIP accounts and closed to land upon project completion. Details of changes in capital assets and construction in progress for the fiscal year ended June 30, 2023 follows on the next page.

NOTE 7 – LONG-TERM OBLIGATIONS: (CONTINUED)

Default Provisions and Acceleration Clauses

Each of the following events shall be an Event of Default:

- a) Default by the Authority in the payment when due of any interest on any Bond;
- b) Default by the Authority in the payment when due of the principal or the purchase price of or premium, if any, on any Bond (whether at maturity, by acceleration, call for redemption or otherwise);
- c) Failure of the Authority to observe and perform any of its other covenants, conditions or agreements under this Indenture or in the Bonds for a period of thirty days after notice, either from the Trustee to the Authority or the Bondholders of twenty-five percent in aggregate principal amount of Bonds then Outstanding to the Trustee and the Authority (unless the Trustee shall agree in writing to an extension of such time before its expiration), specifying such failure and requesting that it be remedied, or in the case of any such default that cannot with due diligence be cured within such thirty day period, failure of the Authority to proceed promptly to cure the default and thereafter prosecute the curing of such default with due diligence;
- d) Abandonment of the Airport by the Authority; and
- e) Destruction or damage to or condemnation of or loss of title to any substantial part of the Airport to the extent of impairing its efficient operation or adversely affecting to a substantial degree its revenues and for any reason the Airport shall not be promptly repaired, replaced or reconstructed (whether such failure promptly to repair, replace or reconstruct the Airport be due to the impracticability of such repair, replacement or reconstruction or to lack of funds for such purpose or for any other reason).

Except as may be otherwise provided pursuant to Supplemental Indenture, upon the occurrence and continuation of an Event of Default, the Trustee may, and if requested by the Bondholders of twenty-five percent in aggregate principal amount of Bonds then Outstanding shall, by notice to the Authority, declare the entire unpaid principal of and premium, if any, and interest on the Bonds due and payable and, thereupon, the entire unpaid principal of and premium, if any, and interest on the Bonds shall forthwith become due and payable. Upon any such declaration the Authority shall forthwith pay to the Bondholders the entire unpaid principal of and premium, if any, and accrued interest on the Bonds, but such covenant may be enforced only against the Revenues specifically pledged for such purpose.

Federal Arbitrage Regulations

The Authority is in compliance with federal arbitrage regulations. Any potential liabilities arising from arbitrage are estimated to be immaterial in relation to the financial statements.

800 MHz Upgrade

The Authority shares an 800MHz radio system with Albemarle County, the City of Charlottesville, the University of Virginia, and other smaller entities. The system is currently undergoing an upgrade with costs to be shared among all parties. The Authority's share of these costs is estimated at \$345,600. Costs are being paid as incurred and have totaled approximately \$286,701 to date.

CHARLOTTESVILLE-ALBEMARLE AIRPORT AUTHORITY

Notes to Financial Statements
At June 30, 2023 (Continued)

NOTE 8 – LEASES RECEIVABLE:

The Authority's leasing operations consist of the leasing of office and terminal space to airlines and other tenants. All leases are subject to public procurement requirements, and each has a different mechanism for determining rates and charges. Each year, lease payments are set to sufficiently fund expenses in the adopted operating budget, including debt service expense and the revenue covenant coverage expense.

The cost of some leased space is not determinable because the leased portions of assets are not significant to the total square footage of the facility. Significant lease agreements are described below.

On April 1, 2015, the Authority entered into a lease with Piedmont Hawthorne Aviation, LLC d/b/a Landmark Aviation for approximately 649,602 square feet of space to be used to operate a general fixed-base operation (FBO). The term of the lease is for a period of 25 years commencing April 1, 2015 and expiring at March 31, 2040 unless earlier terminated or cancelled, pursuant to the provisions of the lease. Provided the lessee is not in default under the agreement at the time of exercise and has spent at least \$500,000 in facility improvements, the lessee shall have two options to extend the term for 5 years each. Annual rental payments are to be paid monthly with scheduled annual increases of 1.5% and two other scheduled increases when capital improvements are made and titles revert to the Authority. In addition, the lessee shall pay additional fees including fuel flowage fees, landing fees, and other fees as outlined in the agreement. The carrying value of the space leased is not determinable.

Amendment #1 to this lease agreement became effective August 1, 2019. The amendment modified the leased area to reflect operational changes by both parties. Overall, the square footage of space was adjusted along with the rent payment schedule to reflect those changes, but the overall term and other fees remained the same. The amendment also updated that Piedmont Hawthorne Aviation, LLC is d/b/a Signature Flight Support.

On April 29, 2015, the Authority entered into a restaurant/retail/vending concession agreement with Tailwind for a term of 10 years commencing May 1, 2015 and continuing through April 30, 2025. The concessionaire shall make monthly payments to the Authority for a percentage of gross receipts from food/beverages, alcoholic beverages, retail sales and vending sales based on a tiered system with a minimum annual guarantee (MAG) of \$50,000. In year 2 and each subsequent year, the MAG is an amount equal to 85% of the previous year's actual rent paid, or \$50,000, whichever is greater. As part of the agreement, the Authority contributed \$125,000 toward the Concessionaire's initial capital investment cost in the form of a Concession Fee Credit. This credit was applied to monthly payments due from Concessionaire beginning with the month in which Concessionaire assumed operation of the concessions, not to exceed \$25,000 annually. The credit was applied as a pro-rated monthly credit against amounts payable during the first five years following the commencement date. In addition, the Authority shall charge the market rate for any storage or office space leased to the Concessionaire by the Authority. Tailwind began operations in August 2015.

On February 1, 2023, the Authority entered into lease agreements with Avis Budget Car Rental, LLC, Enterprise Leasing Co of Norfolk/Richmond LLC, and The Hertz Corporation. The leases are for a single five-year term. The rental car companies lease counter and office space inside the terminal building, ready return parking lot spaces, and wash and service bays at the Quick Turnaround location. Each rental car company proposed yearly minimum annual guarantees. If operations continue throughout the lease period, the Authority is guaranteed to receive \$1M to \$1.1M annually.

CHARLOTTESVILLE-ALBEMARLE AIRPORT AUTHORITY

Notes to Financial Statements
At June 30, 2023 (Continued)

NOTE 8 – LEASES RECEIVABLE: (CONTINUED)

Expected future payments, which are included in the measurement of the lessor activity at June 30, 2023 are as follows:

<u>Year</u>		<u>Principal</u>		<u>Interest</u>		<u>Total</u>
2024	\$	1,448,321	\$	109,869	\$	1,558,190
2025		1,455,484		94,372		1,549,856
2026		1,425,768		79,050		1,504,818
2027		1,440,186		63,799		1,503,985
2028		1,003,191		49,188		1,052,379
2029-2033		1,829,630		175,179		2,004,809
2024-2028		1,743,713		81,296		1,825,009
2039-2040		838,755		6,194		844,949
Total	\$	<u>11,185,048</u>	\$	<u>658,947</u>	\$	<u>11,843,995</u>

For the year ended June 30, 2023, the Authority recognized \$16,599 of interest income.

NOTE 9 – COMPENSATED ABSENCES:

The Authority has accrued the liability arising from compensated absences. The liability for future vacation and sick leave benefits is accrued when such benefits meet the following conditions:

- The employers' obligation is attributable to employee's service already rendered.
- The obligation is related to rights that vest or accumulate.
- The payment of compensation is probable.
- The amount can be reasonably estimated.

Authority employees earn annual leave at rates determined by length of service. Sick leave is earned at the rate of eight hours per month. No benefits or pay are received for unused sick leave upon termination. Accumulated annual leave and earned compensation is paid upon termination. The Authority has outstanding accrued annual leave pay totaling \$222,310 as of June 30, 2023. Of this amount, 10 percent or \$22,231 has been estimated as a current liability.

NOTE 10 – PENSION PLAN:***Plan Description***

All full-time, salaried permanent employees of the Authority are automatically covered by a VRS Retirement Plan upon employment. This is an agent multiple-employer plan administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the Code of Virginia, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

NOTE 10 – PENSION PLAN: (CONTINUED)

Benefit Structures

The System administers three different benefit structures for covered employees – Plan 1, Plan 2, and Hybrid. Each of these benefit structures has different eligibility criteria, as detailed below.

- a. Employees with a membership date before July 1, 2010, vested as of January 1, 2013, and have not taken a refund, are covered under Plan 1, a defined benefit plan. Non-hazardous duty employees are eligible for an unreduced retirement benefit beginning at age 65 with at least 5 years of service credit or age 50 with at least 30 years of service credit. Non-hazardous duty employees may retire with a reduced benefit as early as age 55 with at least 5 years of service credit or age 50 with at least 10 years of service credit. Hazardous duty employees (law enforcement officers, firefighters, and sheriffs) are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. Hazardous duty employees may retire with a reduced benefit as early as age 50 with at least 5 years of service credit.
- b. Employees with a membership date from July 1, 2010 to December 31, 2013, that have not taken a refund or employees with a membership date prior to July 1, 2010 and not vested before January 1, 2013, are covered under Plan 2, a defined benefit plan. Non-hazardous duty employees are eligible for an unreduced benefit beginning at their normal social security retirement age with at least 5 years of service credit or when the sum of their age plus service credit equals 90. Non-hazardous duty employees may retire with a reduced benefit as early as age 60 with at least 5 years of service credit. Hazardous duty employees are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. Hazardous duty employees may retire with a reduced benefit as early as age 50 with at least 5 years of service credit.
- c. Non-hazardous duty employees with a membership date on or after January 1, 2014 are covered by the Hybrid Plan combining the features of a defined benefit plan and a defined contribution plan. Plan 1 and Plan 2 members also had the option of opting into this plan during the election window held January 1 – April 30, 2014 with an effective date of July 1, 2014. Employees covered by this plan are eligible for an unreduced benefit beginning at their normal social security retirement age with at least 5 years of service credit, or when the sum of their age plus service credit equals 90. Employees may retire with a reduced benefit as early as age 60 with at least 5 years of service credit. For the defined contribution component, members are eligible to receive distributions upon leaving employment, subject to restrictions.

Average Final Compensation and Service Retirement Multiplier

The VRS defined benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the employee's average final compensation multiplied by the employee's total service credit. Under Plan 1, average final compensation is the average of the employee's 36 consecutive months of highest compensation and the multiplier is 1.70% for non-hazardous duty employees, 1.85% for sheriffs and regional jail superintendents, and 1.70% or 1.85% for hazardous duty employees as elected by the employer. Under Plan 2, average final compensation is the average of the employee's 60 consecutive months of highest compensation and the retirement multiplier is 1.65% for non-hazardous duty employees, 1.85% for sheriffs and regional jail superintendents, and 1.70% or 1.85% for hazardous duty employees as elected by the employer. Under the Hybrid Plan, average final compensation is the average of the employee's 60 consecutive months of highest compensation and the multiplier is 1.00%. For members who opted into the Hybrid Retirement Plan from Plan 1 or Plan 2, the applicable multipliers for those plans will be used to calculate the retirement benefit for service credited in those plans.

NOTE 10 – PENSION PLAN: (CONTINUED)

Cost-of-Living Adjustment (COLA) in Retirement and Death and Disability Benefits

Retirees with an unreduced benefit or with a reduced benefit with at least 20 years of service credit are eligible for an annual COLA beginning July 1 after one full calendar year from the retirement date. Retirees with a reduced benefit and who have less than 20 years of service credit are eligible for an annual COLA beginning on July 1 after one calendar year following the unreduced retirement eligibility date. Under Plan 1, the COLA cannot exceed 5.00%. Under Plan 2 and the Hybrid Plan, the COLA cannot exceed 3.00%. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia, as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

Employees Covered by Benefit Terms

As of the June 30, 2021 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	<u>Number</u>
Inactive members or their beneficiaries currently receiving benefits	15
Inactive members:	
Vested inactive members	5
Non-vested Inactive members	19
Inactive members active elsewhere in VRS	<u>14</u>
Total inactive members	38
Active members	<u>45</u>
Total covered employees	<u><u>98</u></u>

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement.

The Authority’s contractually required employer contribution rate for the year ended June 30, 2023 was 10.78% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2021.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Authority were \$307,719 and \$222,879 for the years ended June 30, 2023 and June 30, 2022, respectively.

NOTE 10 – PENSION PLAN: (CONTINUED)

Net Pension Liability

The net pension liability (NPL) is calculated separately for each employer and represents that particular employer’s total pension liability determined in accordance with GASB Statement No. 68, less that employer’s fiduciary net position. For the Authority, the net pension liability was measured as of June 30, 2022. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2021, rolled forward to the measurement date of June 30, 2022.

Actuarial Assumptions – General Employees

The total pension liability for General Employees in the Authority’s Retirement Plan was based on an actuarial valuation as of June 30, 2021, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2022.

Inflation	2.50%
Salary increases, including inflation	3.50% – 5.35%
Investment rate of return	6.75%, net of pension plan investment expenses, including inflation

Mortality rates:

All Others (Non-10 Largest) – Non-Hazardous Duty: 15% of deaths are assumed to be service related

Pre-Retirement:

Pub-2010 Amount Weighted Safety Employee Rates projected generationally; 95% of rates for males; 105% of rates for females set forward 2 years

Post-Retirement:

NOTE 10 – PENSION PLAN: (CONTINUED)

Actuarial Assumptions – General Employees: (Continued)

Mortality rates: (Continued)

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

All Others (Non-10 Largest) – Non-Hazardous Duty:

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

Actuarial Assumptions – Public Safety Employees with Hazardous Duty Benefits

The total pension liability for Public Safety employees with Hazardous Duty Benefits in the Authority's Retirement Plan was based on an actuarial valuation as of June 30, 2021, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2022.

Inflation	2.50%
Salary increases, including inflation	3.50% – 4.75%
Investment rate of return	6.75%, net of pension plan investment expenses, including inflation

NOTE 10 – PENSION PLAN: (CONTINUED)

Long-term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Long-term Target Asset Allocation	Arithmetic Long-term Expected Rate of Return	Weighted Average Long-term Expected Rate of Return*
Public Equity	34.00%	5.71%	1.94%
Fixed Income	15.00%	2.04%	0.31%
Credit Strategies	14.00%	4.78%	0.67%
Real Assets	14.00%	4.47%	0.63%
Private Equity	14.00%	9.97%	1.36%
MAPS - Multi-Asset Public Strategies	6.00%	3.73%	0.22%
PIP - Private Investment Partnership	3.00%	6.55%	0.20%
Total	100.00%		5.33%
		Inflation	2.50%
		**Expected arithmetic nominal return	7.83%

* The above allocation provides a one-year expected return of 7.83%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 6.72%, including expected inflation of 2.50%.

**On October 10, 2019, the VRS Board elected a long-term rate of return of 6.75% which was roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.11%, including expected inflation of 2.50%.

CHARLOTTESVILLE-ALBEMARLE AIRPORT AUTHORITY

Notes to Financial Statements
At June 30, 2023 (Continued)

NOTE 10 – PENSION PLAN: (CONTINUED)

Discount Rate

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Consistent with the phased-in funding provided by the General Assembly for state and teacher employer contributions; the Authority was also provided with an opportunity to use an alternative employer contribution rate. For the year ended June 30, 2023, the alternate rate was the employer contribution rate used in FY 2012 or 100% of the actuarially determined employer contribution rate from the June 30, 2021 actuarial valuations, whichever was greater. From July 1, 2022 on, participating employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in Net Pension Liability

	Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)
Balances at June 30, 2021	\$ 7,900,345	\$ 6,824,984	\$ 1,075,361
Changes for the year:

NOTE 10 – PENSION PLAN: (CONTINUED)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Authority using the discount rate of 6.75%, as well as what the Authority's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

	Rate		
	1%	Current	1%
	Decrease	Discount	Increase
	(5.75%)	(6.75%)	(7.75%)
Authority's Net Pension Liability	\$ 2,716,983	\$ 1,537,402	\$ 582,695

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2023, the Authority recognized pension expense of \$404,680. At June 30, 2023, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 233,699	\$ 1,062
Change of assumptions	118,856	-
Net difference between projected and actual earnings on pension plan investments	-	191,057
Employer contributions subsequent to the measurement date	307,719	-
Total	\$ 660,274	\$ 192,119

\$307,719 reported as deferred outflows of resources related to pensions resulting from the Authority's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the fiscal year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future reporting periods as follows:

Year ended June 30	
2024	\$ 132,788
2025	63,854
2026	(130,032)
2027	93,826

Pension Plan Data

Information about the VRS Political Subdivision Retirement Plan is also available in the separately issued VRS 2022 Annual Comprehensive Financial Report (Annual Report). A copy of the 2022 VRS Annual Report may be downloaded from the VRS website at <http://www.varetire.org/pdf/publications/2022-annual-report.pdf>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

NOTE 11 – OTHER POSTEMPLOYMENT BENEFITS:

Group Life Insurance (GLI) Plan (OPEB Plan):

Plan Description

The Group Life Insurance (GLI) Plan was established pursuant to §51.1-500 et seq. of the Code of Virginia, as amended, and which provides the authority under which benefit terms are established or may be amended. All full-time, salaried permanent employees of the state agencies, teachers, and employees of participating political subdivisions are automatically covered by the VRS GLI Plan upon employment. This is a cost-sharing multiple-employer plan administered by the Virginia Retirement System (the System), along with pensions and other OPEB plans, for public employer groups in the Commonwealth of Virginia.

In addition to the Basic GLI benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional GLI Plan. For members who elect the optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured plan, it is not included as part of the GLI Plan OPEB.

The specific information for GLI Plan OPEB, including eligibility, coverage and benefits is described below:

Eligible Employees

The GLI Plan was established July 1, 1960, for state employees, teachers, and employees of political subdivisions that elect the plan. Basic GLI coverage is automatic upon employment. Coverage ends for employees who leave their position before retirement eligibility or who take a refund of their accumulated retirement member contributions and accrued interest.

NOTE 11 – OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)

Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

Benefit Amounts

The GLI Plan is a defined benefit plan with several components. The natural death benefit is equal to the employee's covered compensation rounded to the next highest thousand and then doubled. The accidental death benefit is double the natural death benefit. In addition to basic natural and accidental death benefits, the plan provides additional benefits provided under specific circumstances that include the following: accidental dismemberment benefit, seatbelt benefit, repatriation benefit, felonious assault benefit, and accelerated death benefit option. The benefit amounts are subject to a reduction factor. The benefit amount reduces by 25% on January 1 following one calendar year of separation. The benefit amount reduces by an additional 25% on each subsequent January 1 until it reaches 25% of its original value. For covered members with at least 30 years of service credit, the minimum benefit payable was set at \$8,000 by statute in 2015. This will be increased annually based on the VRS Plan 2 cost-of-living adjustment calculation. The minimum benefit adjusted for the COLA was \$8,984 as of June 30, 2023.

Contributions

The contribution requirements for the GLI Plan are governed by §51.1-506 and §51.1-508 of the Code of Virginia, as amended, but may be impacted as a result of funding provided to state agencies and school divisions by the Virginia General Assembly. The total rate for the GLI Plan was 1.34% of covered employee compensation. This was allocated into an employee and an employer component using a 60/40 split. The employee component was 0.80% (1.34% x 60%) and the employer component was 0.54% (1.34% x 40%). Employers may elect to pay all or part of the employee contribution; however, the employer must pay all of the employer contribution. Each employer's contractually required employer contribution rate for the year ended June 30, 2023 was 0.54% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2021. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits payable during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the GLI Plan from the entity were \$16,894 and \$14,763 for the years ended June 30, 2023 and June 30, 2022, respectively.

In June 2022, the Commonwealth made a special contribution of approximately \$30.4 million to the Group Life Insurance Plan. This special payment was authorized by a budget amendment included in Chapter 1 of the 2022 Appropriation Act, and is classified as a non-employer contribution.

GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the GLI Plan OPEB

At June 30, 2023, the entity reported a liability of \$151,355 for its proportionate share of the Net GLI OPEB Liability. The Net GLI OPEB Liability was measured as of June 30, 2022 and the total GLI OPEB liability used to calculate the Net GLI OPEB Liability was determined by an actuarial valuation performed as of June 30, 2021, and rolled forward to the measurement date of June 30, 2022. The covered employer's proportion of the Net GLI OPEB Liability was based on the covered employer's actuarially determined employer contributions to the GLI Plan for the year ended June 30, 2022 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2022, the participating employer's proportion was .01260% as compared to .01190% at June 30, 2021.

GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the GLI Plan OPEB (Continued)

For the year ended June 30, 2023, the participating employer recognized GLI OPEB expense of \$13,260. Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

At June 30, 2023, the employer reported deferred outflows of resources and deferred inflows of resources related to the GLI OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 11,985	\$ 6,072
Net difference between projected and actual earnings on GLI OPEB program investments	-	9,457
Change in assumptions	5,645	14,743
Changes in proportionate share	27,433	4,551
Employer contributions subsequent to the measurement date	<u>16,894</u>	<u>-</u>
Total	<u>\$ 61,957</u>	<u>\$ 34,823</u>

\$16,894 reported as deferred outflows of resources related to the GLI OPEB resulting from the employer's contributions subsequent to the measurement date will be recognized as a reduction of the Net GLI OPEB Liability in the fiscal year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the GLI OPEB will be recognized in the GLI OPEB expense in future reporting periods as follows:

Year Ended June 30

2024	\$ 5,774
2025	5,040

NET GLI OPEB Liability

The net OPEB liability (NOL) for the GLI Plan represents the plan's total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of the measurement date of June 30, 2022, NOL amounts for the GLI Plan are as follows (amounts expressed in thousands):

	GLI OPEB Plan
Total GLI OPEB Liability	\$ 3,672,085
Plan Fiduciary Net Position	2,467,989
GLI Net OPEB Liability (Asset)	\$ 1,204,096
Plan Fiduciary Net Position as a Percentage of the Total GLI OPEB Liability	67.21%

The total GLI OPEB liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net GLI OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the System's notes to the financial statements and required supplementary information.

Long-Term Expected Rate of Return

The long-term expected rate of return on the System's investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of System's investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Long-term Target Asset Allocation	Arithmetic Long-term Expected Rate of Return	Weighted Average Long-term Expected Rate of Return*
Public Equity	34.00%	5.71%	1.94%
Fixed Income	15.00%	2.04%	0.31%
Credit Strategies	14.00%	4.78%	0.67%
Real Assets	14.00%	4.47%	0.63%
Private Equity	14.00%	9.73%	1.36%
MAPS - Multi-Asset Public Strategies	6.00%	3.73%	0.22%
PIP - Private Investment Partnership	3.00%	6.55%	0.20%
Total	100.00%		5.33%
		Inflation	2.50%
	**Expected arithmetic nominal return		7.83%

*The above allocation provides a one-year return of 7.83%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 6.72%, including expected inflation of 2.50%.

**On October 10, 2019, the VRS Board elected a long-term rate of return of 6.75% which was roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.11%, including expected inflation of 2.50%.

NOTE 11 – OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)

Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

Discount Rate

The discount rate used to measure the total GLI OPEB liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy and at rates equal to the actuarially determined contribution rates adopted by the VRS Board of Trustees. Through the fiscal year ended June 30, 2022, the rate contributed by the entity for the GLI OPEB will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly which was 100% of the actuarially determined contribution rate. From July 1, 2022 on, employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the GLI OPEB's fiduciary net position was projected to be available to make all projected future benefit payments of eligible employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total GLI OPEB liability.

Sensitivity of the Employer's Proportionate Share of the Net GLI OPEB Liability to Changes in the Discount Rate

The following presents the employer's proportionate share of the net GLI OPEB liability using the discount rate of 6.75%, as well as what the employer's proportionate share of the net GLI OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

	Rate		
	1% Decrease	Current Discount	1% Increase

GLI Plan Fiduciary Net Position

Detailed information about the GLI Plan's Fiduciary Net Position is available in the separately issued VRS 2022 Annual Comprehensive Financial Report (Annual Report). A copy of the 2022 VRS Annual Report may be downloaded from the VRS website at <http://www.varetire.org/pdf/publications/2022-annual-report.pdf>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Line of Duty Act (LODA)

The Line of Duty Act (LODA) provides death and healthcare benefits to certain law enforcement and rescue personnel, and their beneficiaries, who were disabled or killed in the line of duty. Benefit provisions and eligibility requirements are established by title 9.1 Chapter 4 of the Code of Virginia. Funding of LODA benefits is provided by employers in one of two ways: (a) participation in the Line of Duty and Health Benefits Trust Fund (LODA Fund), administered by the Virginia Retirement System (VRS) or (b) self-funding by the employer or through an insurance company.

The Authority has elected to provide LODA benefits through an insurance company. The obligation for the payment of benefits has been effectively transferred from the Authority to Virginia Risk Sharing Association (VRSA). VRSA assumes all liability for the Authority's LODA claims that are approved by VRS. The pool purchases reinsurance to protect the pool from extreme claims costs.

CHARLOTTESVILLE-ALBEMARLE AIRPORT AUTHORITY

Notes to Financial Statements
At June 30, 2023 (Continued)

NOTE 11 – OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)**Line of Duty Act (LODA): (Continued)**

The current-year OPEB expense/expenditure for the insured benefits is defined as the amount of premiums or other payments required for the insured benefits for the reporting period in accordance with the agreement with the insurance company for LODA and a change in liability to the insurer equal to the difference between amounts recognized as OPEB expense and amounts paid by the employer to the insurer. The Authority's LODA coverage is fully covered or "insured" through VRSA. This is built into the LODA coverage cost presented in the annual renewals. The Authority's LODA premium for the year ended June 30, 2023 was \$16,014.

NOTE 12 – RISK MANAGEMENT:

The Authority is exposed to various risks of loss related to torts, damage to property, injuries to employees, destruction of assets and natural disasters. These risks are covered by commercial insurance purchased through independent third parties. There were no settlements in excess of insurance coverage for the previous three years.

NOTE 13 – COMMITMENTS AND CONTINGENCIES:

Federal programs in which the Authority participates were audited in accordance with the provisions of the Uniform Guidance. Pursuant to the provisions of the regulations major programs were tested for compliance with applicable grant requirements. In addition to matters of noncompliance disclosed by the audit, the Federal Government may subject grant programs to additional compliance tests which may result in other disallowed expenditures. In the opinion of management, any future disallowances of current grant program expenditures would be immaterial.

At June 30, 2023, the Authority had two major projects in the construction phase, which are presented in the financial statements as Construction in Progress. Presented is the project, contract amount, expenditures to date and balance of the contract remaining:

	Contract Amounts	Expenditures To Date	Balance of Contracts
Airfield Lighting and Signage-Austin Electric	\$ 3,846,725	\$ 3,207,694	\$ 639,031
Airfield Lighting and Signage-Delta Airport Consultants	495,000	336,003	158,997
Total	\$ 4,341,725	\$ 3,543,697	\$ 798,028

NOTE 14 – LITIGATION:

At June 30, 2023, there were no matters of litigation involving the Authority which would materially affect the Authority's financial position should any court decisions on pending matters not be favorable to the Authority.

CHARLOTTESVILLE-ALBEMARLE AIRPORT AUTHORITY

Notes to Financial Statements
At June 30, 2023 (Continued)

NOTE 15 – ADOPTION OF ACCOUNTING PRINCIPLES:

The Authority implemented provisions of Governmental Accounting Standards Board Statement No. 96, *Subscription Based IT Arrangements (SBITAs)* during the fiscal year ended June 30, 2023. Statement No. 96, *Subscription Based IT Arrangements (SBITAs)* requires recognition of certain subscription assets and liabilities for certain contracts that convey control of the right to use another party's (a SBITA vendor's) information technology (IT) software, alone or in combination with tangible capital assets (the underlying IT assets), as specified in the contract for a period of time in an exchange or exchange-like transaction. No restatement of beginning net position was required as a result of this implementation.

NOTE 16 – SUBSEQUENT EVENTS:

Grants and Contracts

The following contracts have been executed:

- ConvergeOne in the amount of \$319,723 was executed during FY24. This project will replace the IT infrastructure for all the airport's networks.
- ConvergeOne in the amount of \$257,691 was executed during FY24. This project will upgrade all the Microsoft and phone systems.

Change in Management

On May 10, 2023, the Authority announced the retirement of Melinda Crawford, CEO. Her retirement was effective August 31, 2023. To ensure a seamless transition in leadership, the Authority's Board Members met on August 7, 2023, and appointed Jason Burch as the new Chief Executive Officer effective September 1, 2023. In a press release, Don Long, Chairman of the Charlottesville Albemarle Airport Authority Board stated: "After a thorough internal selection process, I am proud to announce Jason Burch's appointment as the new Chief Executive Officer (CEO) of the Charlottesville Albemarle Airport Authority. Jason's decades of experience and passion for leadership will be crucial to the continued post-pandemic recovery of CHO Airport," said Chairman Long. "Jason began his career at CHO in 2001 and has been involved with most aspects of the Airport's operations and has served as CHO's Chief Operating Officer for the past six years. While serving in this role, he helped to lead CHO through some of the toughest times in its history, and we know he will keep CHO on a successful path as we move forward. He will continue to help CHO Airport provide first-class air service and worldwide access to our community."

NOTE 17 – UPCOMING PRONOUNCEMENTS:

Statement No. 101, *Compensated Absences*, updates the recognition and measurement guidance for compensated absences. It aligns the recognition and measurement guidance under a unified model and amends certain previously required disclosures. The requirements of this Statement are effective for fiscal years beginning after December 15, 2023.

Management is currently evaluating the impact these standards will have on the financial statements when adopted.

Notes to Required Supplementary Information - VRS Pension Plan
Year Ended June 30, 2023

Changes of benefit terms – There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

Changes of assumptions – The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

All Others (Non-10 Largest) – Non-Hazardous Duty:

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

All Others (Non-10 Largest) – Hazardous Duty:

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. Increased disability life expectancy. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience and changed final retirement age from 65 to 70
Withdrawal Rates	Decreased rates and changed from rates based on age and service to rates based on service only to better fit experience and to be more consistent with Locals Largest 10 Hazardous Duty
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

¹ When the new employee lot was completed during FY16, the old employee lot became the overflow lot.

² This lot was previously included in the FBO leasehold, but under the new agreement, it clarified these spaces were airport spaces.

³ These figures were updated with final space allocation performed after Terminal Renovation and Expansion project completed in 2016.

⁴ In December 2017, the Authority purchased 7.8 acres of land that became available adjoining airport property.

In May 2022, the Authority purchased 66 acres of land that became available adjoining airport property.

⁵ October 31, 2017, the Authority's agreement with Interspace ended and the Authority now does advertising in-house.

⁶ Signature Flight Support completed construction on a box hangar during FY18.

⁷ During FY20, a temporary lot (97 spaces) was created, an employee lot was converted to passenger overflow parking (146 spaces) and an expansion of the economy lot (88 spaces) was completed. The GA lot was converted to employee parking. Eight (8) spaces were removed from rental cars; 4 of those were put to employee parking and the other 4 were taken out of inventory.

⁸ Hertz Rental Car filed for bankruptcy in May 2020 and later pulled out of the Airport in September 2020.

COMPLIANCE SECTION

**Independent Auditors' Report on Internal Control over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with *Government Auditing Standards***

**To The Honorable Members of The
Charlottesville-Albemarle Airport Authority
Charlottesville, Virginia**

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Authorities, Boards, and Commissions*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the business-type activities of Charlottesville-Albemarle Airport Authority as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Charlottesville-Albemarle Airport Authority's basic financial statements and have issued our report thereon dated December 18, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Charlottesville-Albemarle Airport Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Charlottesville-Albemarle Airport Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of Charlottesville-Albemarle Airport Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Charlottesville-Albemarle Airport Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Charlottesville, Virginia

December 18, 2023

**Independent Auditors' Report on Compliance for Each Major Program and on Internal Control over
Compliance Required by the Uniform Guidance and the Passenger Facility Charge (PFC) Program**

**To the Honorable Members of The
Charlottesville-Albemarle Airport Authority
Charlottesville, Virginia**

Report on Compliance for Each Major Federal Program and the Passenger Facility Charge Program

Opinion on Each Major Federal Program and the Passenger Facility Charge Program

We have audited Charlottesville-Albemarle Airport Authority's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of Charlottesville-Albemarle Airport Authority's major federal programs for the year ended June 30, 2023, and the requirements described in the *Passenger Facility Charge Audit Guide for Public Agencies* (Guide), issued by the Federal Aviation Administration for its passenger facility charge program. Charlottesville-Albemarle Airport Authority's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, Charlottesville-Albemarle Airport Authority complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs, and the passenger facility charge program, for the year ended June 30, 2023.

Basis for Opinion on Each Major Federal Program and the Passenger Facility Charge Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and the Guide. Our responsibilities under those standards, the Uniform Guidance and the Guide, are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Charlottesville-Albemarle Airport Authority and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program and the passenger facility charge program. Our audit does not provide a legal determination of Charlottesville-Albemarle Airport Authority's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Charlottesville-Albemarle Airport Authority's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Charlottesville-Albemarle Airport Authority's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, the Uniform Guidance and the Guide will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Charlottesville-Albemarle Airport Authority's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance and the Guide, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Charlottesville-Albemarle Airport Authority's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Charlottesville-Albemarle Airport Authority's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Charlottesville-Albemarle Airport Authority's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program or the passenger facility charge program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program or the passenger facility charge program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program or the passenger facility charge program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Report on Internal Control over Compliance (Continued)

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the Guide. Accordingly, this report is not suitable for any other purpose.

A handwritten signature in cursive script that reads "Robinson, Farmer, Cox, Associates".

CHARLOTTESVILLE-ALBEMARLE AIRPORT AUTHORITY

Schedule of Expenditures of Federal Awards
Year Ended June 30, 2023

Federal Grantor/Pass-through Grantor/Program or Cluster Title	Federal Assistance Listing Number	Pass-through Entity Identifying Number	Total Federal Expenditures
<u>Department of Transportation:</u>			
FAA Direct Payments:			
Airport Improvement Program	20.106	N/A	\$ 6,321,088
COVID-19 Airport Improvement Program (ARPA)	20.106	N/A	193,059
COVID-19 Airport Improvement Program (ACRGP Concessions)	20.106	N/A	876
Total Airport Improvement Program			<u>\$ 6,515,023</u>
Total expenditures of federal awards			<u><u>\$ 6,515,023</u></u>

Basis of Presentation

This schedule includes the federal award activity of Charlottesville-Albemarle Airport Authority under programs of the federal government for the year ended June 30, 2023. The information in this schedule is presented in accordance with requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the Authority, it is not intended to and does not present the financial position, changes in net position, or cash flows of the Authority.

Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

Subrecipients

No awards were passed through to subrecipients.

Indirect Cost Recovery

No indirect costs are claimed for reimbursement; therefore, the 10% de minimis indirect cost rate is not used.
